## Eco-Friendly Statement

The Pickled Pear Catering Company has been dedicated to conducting business with integrity, caring for the community and respecting our environment. We are proud that in our small way we are helping the sustainability of our environment wherever possible through our eco-friendly business practices. These include:

- All disposable tableware is 100% organic and fully compostable
- All our vegetable oil used in cooking is recycled into bio-diesel
- We support, where possible, 100% Tasmanian owned and operated food suppliers including Ashgrove Cheese Farm as our milk supplier, Golden Free Range eggs, Nichols free range chicken and Tascaffe coffee beans
- Recycling all our glass, plastic and paper products
- Where possible all our food scraps are composted
- Where possible we walk our deliveries rather than using the vehicle

Warm Regards,

**The Pickled Pear Team**
